1: Introduction

In today's ever-changing entertainment landscape, where new movies and songs are released daily, some people are passionate about sharing what they watched or listened to while others prefer to read reviews before deciding whether to watch a movie or listen to a song. Therefore, there is a need for an independent platform where these individuals can share their thoughts and opinions. Welcome to Criticsworld, a new web application that is set to revolutionize the way we engage and discover the world of films and songs.

2: Terminology

This section covers the terminology that you may encounter while using Criticsworld. If at any time you are using the system and become confused as to what something means, you can find it explained here.

2.1 Admin

One of two roles within the Criticsworld system. An admin is solely responsible for adding, deleting, and updating movie details. Also, the admin can edit and delete the reviews posted by other users.

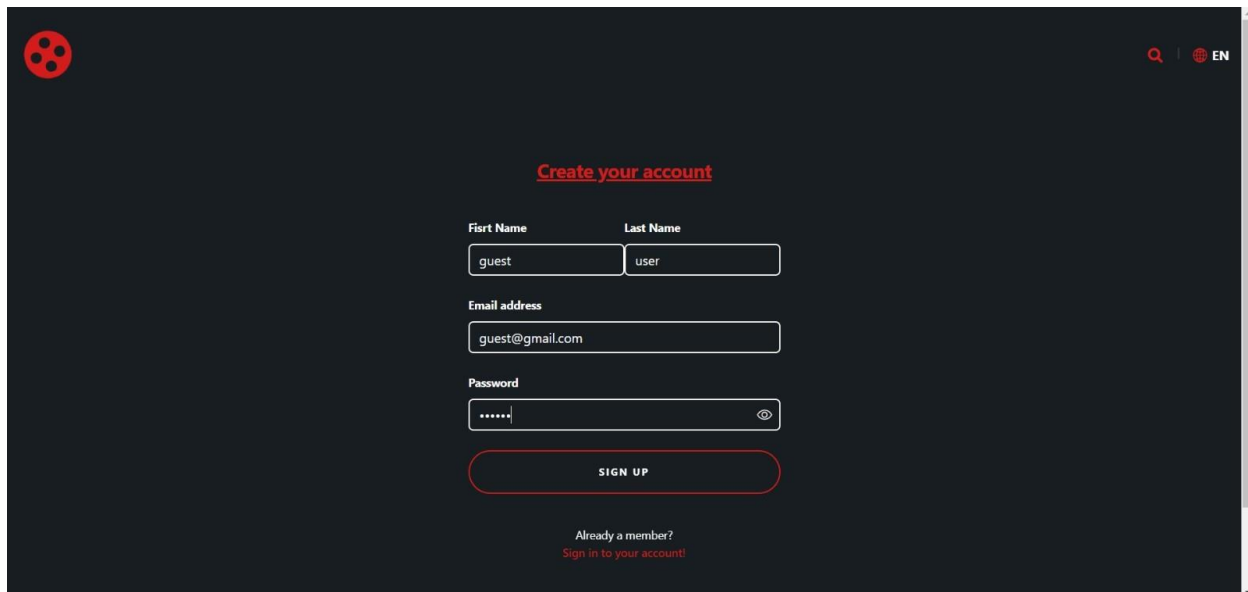

2.2 User

The user once registered and logged in can search for any movie, post, delete, and update their reviews. The user will also be able to see the reviews posted by other users.

3: Pages

3.1 Registration page

To access the feature of Criticsworld web application users need to register into the app with the following details – First name, Last name, Email, and Password.

The image shows a registration page for the Criticsworld web application. The page has a dark background. In the top left corner, there is a red circular logo with four white dots. In the top right corner, there is a search icon and the text 'EN'. The main heading is 'Create your account' in red. Below this, there are four input fields: 'First Name' with the value 'guest', 'Last Name' with the value 'user', 'Email address' with the value 'guest@gmail.com', and 'Password' with the value '*****'. There is a 'SIGN UP' button below the password field. At the bottom, there is a link 'Already a member? Sign in to your account!'.

Create your account

First Name: guest Last Name: user

Email address: guest@gmail.com

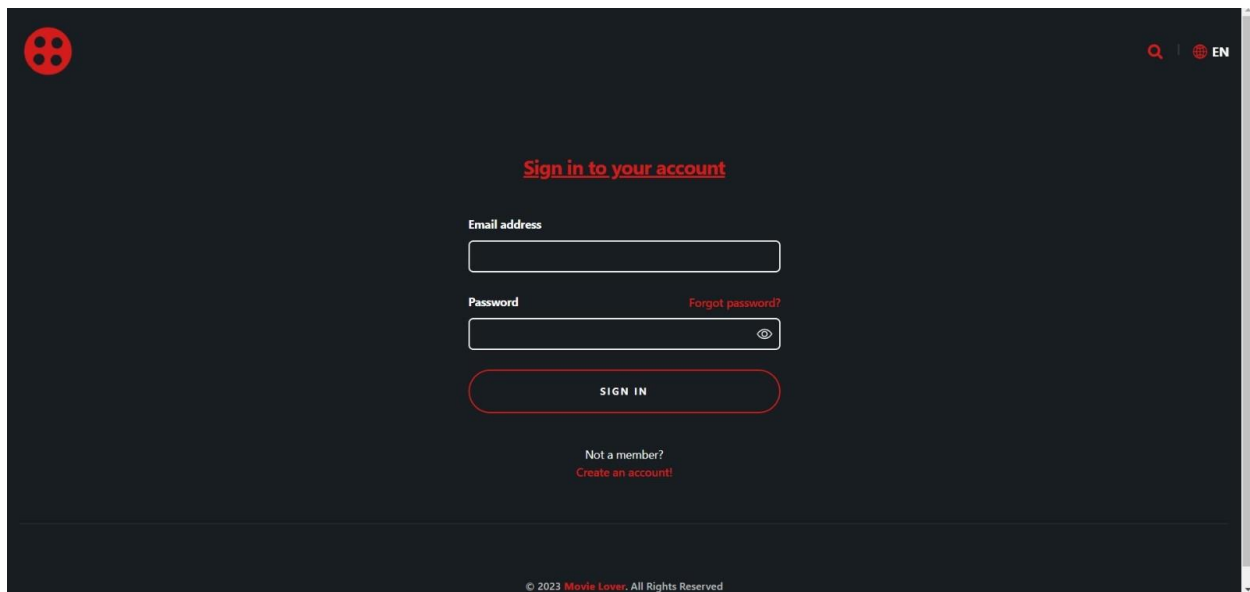

Password: *****

3.2 Login Page

If the user is registered to the application user can directly login using their credentials – Email and Password.

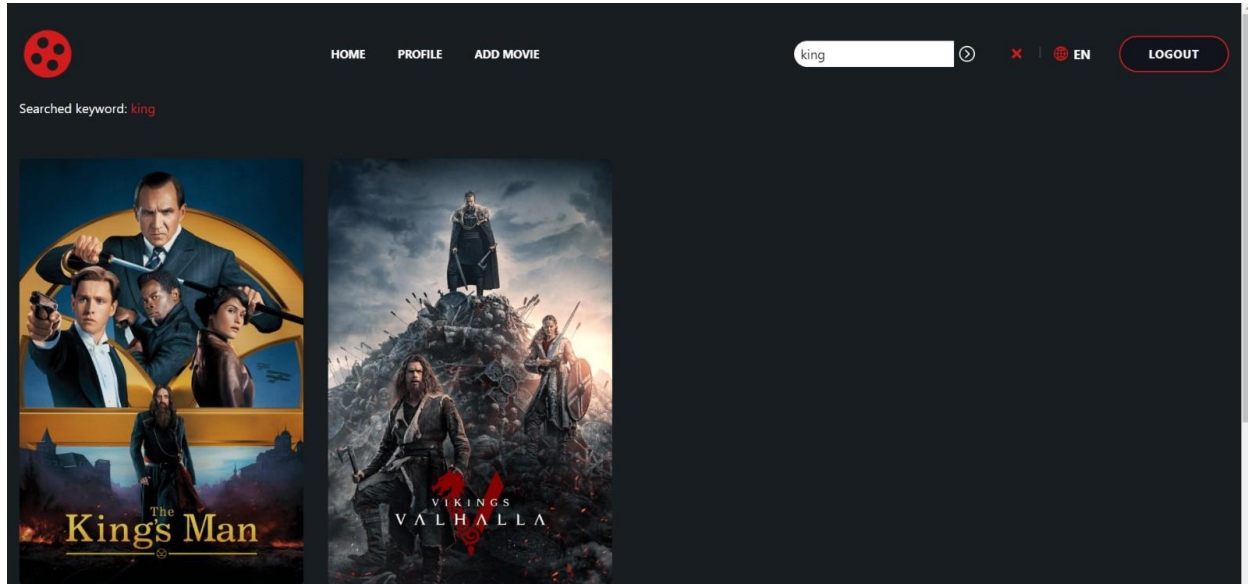

3.3 Dashboard

After logging in, the Dashboard will appear with the content including the list of movies.

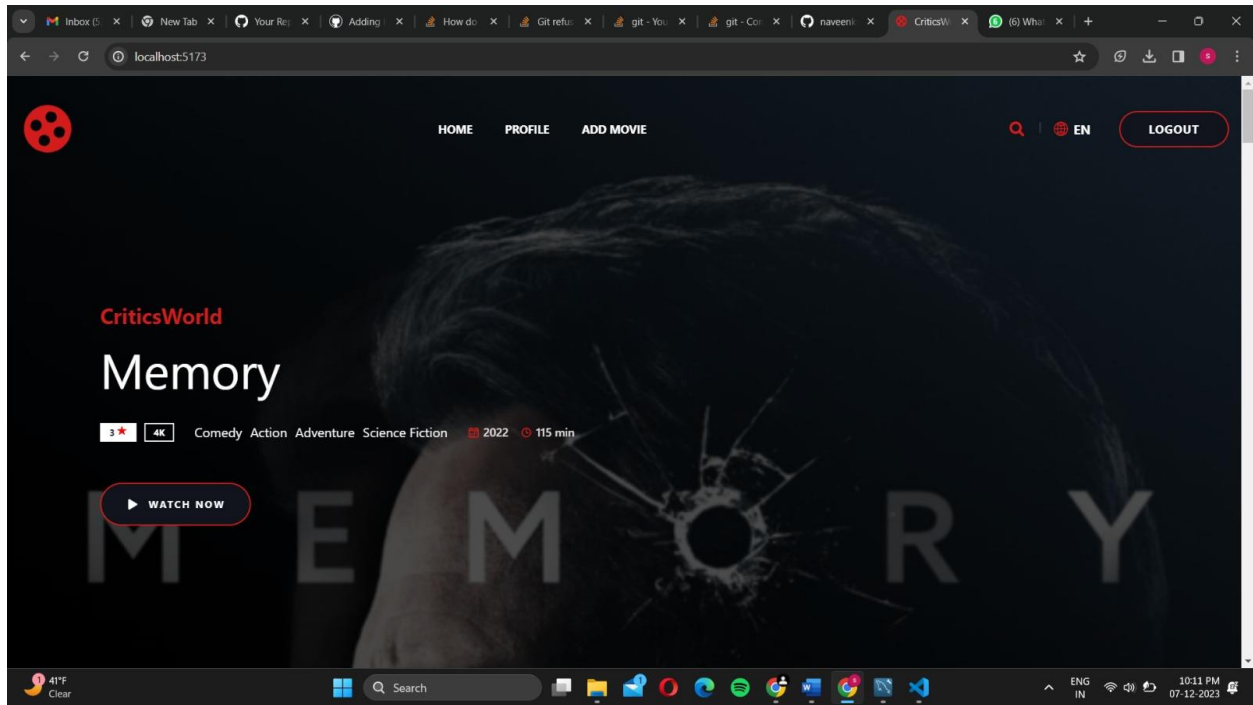

3.3.1 Search Movie

Users will be able to search for a movie using the movie name.

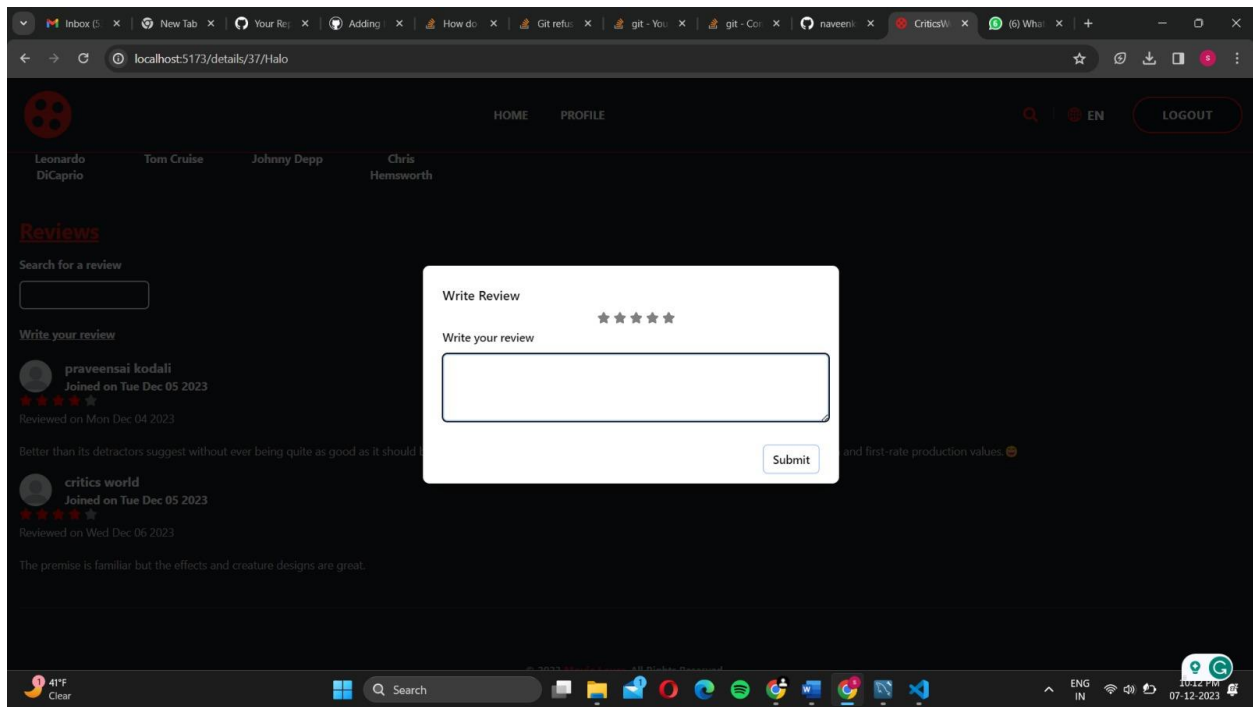

3.4 Movie Details Page

Every movie card gets to the detail page of the movie. The details on the page include the movie title, cast, director, release year, and existing reviews.

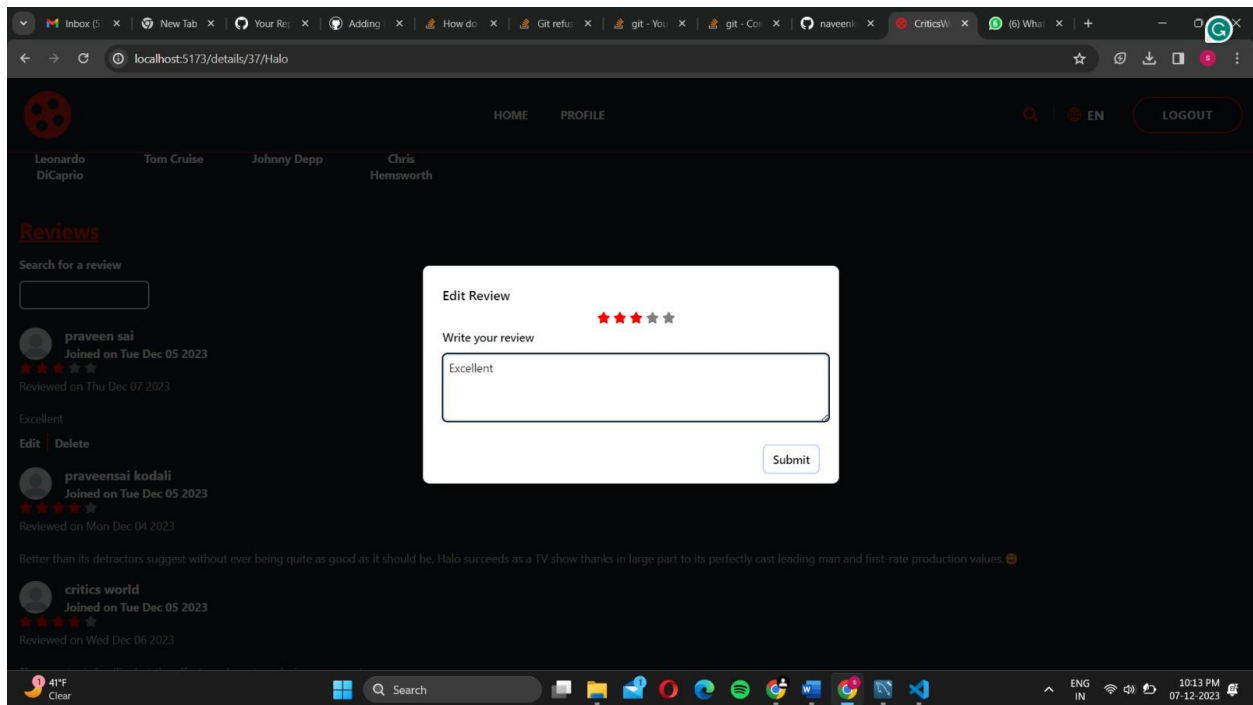

3.4.1 Add Review

The user will have an option to post the review by clicking on the button “Write a Review”, which will open a dialog box to enter the reviews and to rate the movie. Once the review is submitted it will be visible in the Reviews section.

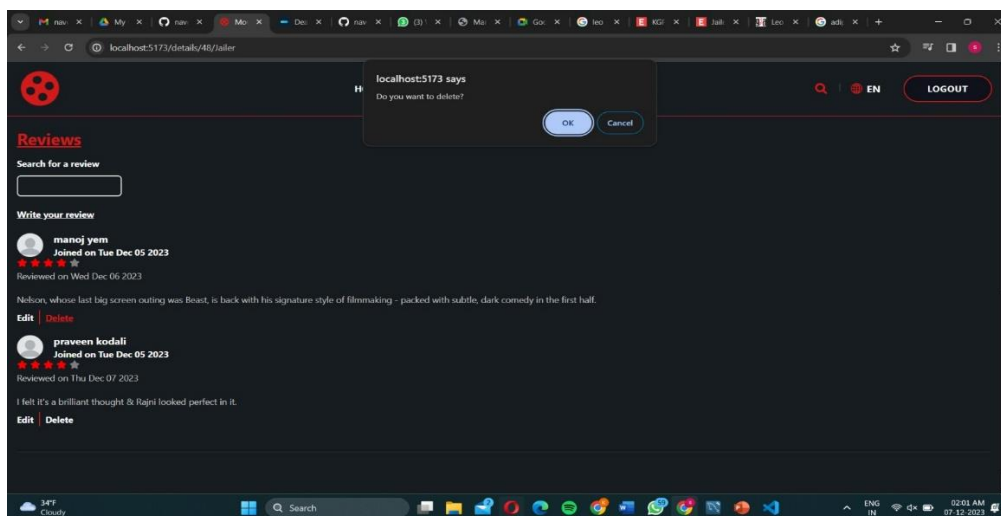

3.4.2 Edit Review

If the review is posted by the user, the user will get an option to edit the review posted by clicking on the edit button which will open a dialog box where the user can update their review.

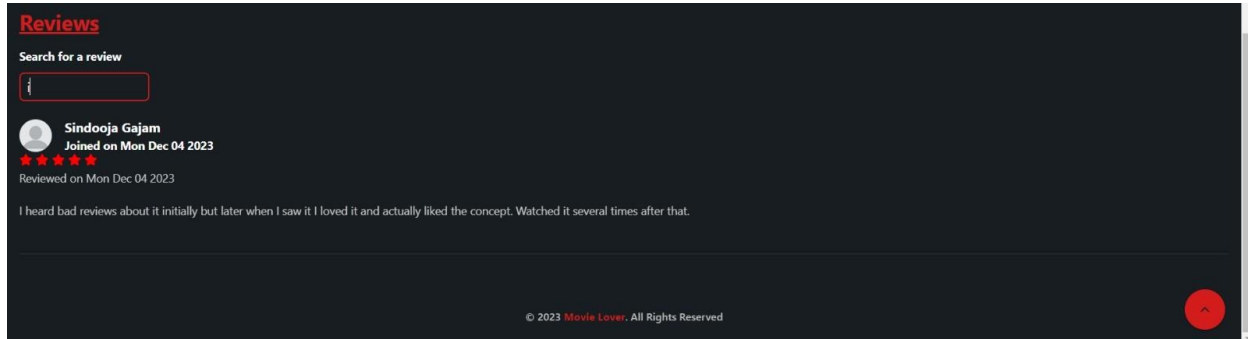

3.4.3 Delete Review

If the review is posted by the user, the user will get an option to delete the review posted by clicking on the delete button which will open a popup asking for a confirmation to delete the review.

3.4.4 Search review

User will be able to search the review using any keywords.

4: Conclusion

I have tried to be as thorough as possible with this manual under rigid time constraints. Please be aware that this manual is for version 1.0 of the Criticsworld software. It will likely be invalid for future versions of the software and should not be used for future versions of the software. If you encounter any issues with this manual or have any suggestions or improvements, please visit https://github.com/sindooja2554/CriticsWorld_Backend and open an issue by clicking on the 'Issues' tab, and then the green 'New issue' button.
